## Bold *beyond* trends

Naming cars after the most famous winds in the world is a tradition at Maserati. It continues with a new SUV, named after the fierce northeast wind of the Mediterranean Sea: The Grecale.

Cosmopolitan and modern. Italian and timeless. Out of this creative tension comes the all-new Grecale. Its sculpted lines fuse essential iconic design elements with an audacious, futuristic outlook. Purity of shape, free of ostentation. Exceptional never follows trends.

Grecale *GT*

L4 Engine - *Grecale GT, Modena*

The new Grecale is powered by the spirit of everyday adventure with everything you would expect of a Maserati SUV.

An innovative display of Maserati performance. The Grecale features only our latest engine capabilities. Besides the 300 or 330hp mild hybrid propulsion comes the super powerful yet efficient 530hp V6 Nettuno engine.

# Three new trims for a *unique encounter*

Three exclusive new trims have been introduced as part of the new Grecale Range. In terms of style, the new **GT, Modena and Trofeo** trims introduced a **new Maserati logo** on the hood and a **new specific badge for each trim version** placed just above the three iconic side air vents. At the rear, the traditional saetta logo has been replaced by a new Trident logo on the C-pillar, while a new Maserati script takes stage on the trunk.

**GT**

Maserati, with the GT trim, is thinking about Cosmopolitan Characters with a Dynamic Lifestyle who seek something in Materials and Textures that will evoke a Feeling of Home even when driving long distances.

**Modena**

Modena trim is made for people whose lifestyle is sportier and spend more time outdoors following their passions. For the Modena trim, the Brand has in mind people who cover high mileages, use their car for travel, a highly dynamic person, always on the move.

**Trofeo**

Trofeo trim is made for drivers who adore sports and great performances. A cool appearance paired with an engine of irresistible power. The exposed carbon fiber has a texture verging on the three dimensional, the tactile look evokes almost a raw material effect.

#### Turn back:

Inspired by the Giugiaro 3200 GT, the boomerang shaped taillights integrate seamlessly with the Grecale's clean lines. On the lower, more technical part, the newly designed exhausts visually describe the roaring Maserati sound.

#### Distinctive signs:

The triple side air vents have been an essential element in Maserati designs since 1947. In the Grecale they go with the trim version names: GT, Modena or Trofeo.

Grecale *Modena*

#### A bold look forward:

Led technology with a design signature derived from the Maserati MC20 super sports car. The Grecale's headlights perfectly fit with its more vertical body shape.

**Air suspensions:**

From road-hugging to off-road riding. The air suspensions, standard on the Trofeo and optional for other versions, can be calibrated through six levels according to your drive mode and needs. When the car is parked, the changed height makes it easier to get in and get out.

**Go your own way:**

What’s your mood today? What are you up to? From COMFORT to GT, from SPORT to OFF-ROAD: just select your drive mode and go. If you own a Trofeo and you are looking for maximum performance, select CORSA mode with Launch Control: bellissimo.

### MIA (Maserati Intelligent Assistant):

With the customizable Maserati Intelligent Assistant (MIA) powered by Android Automotive OS, you can access its many controls on the large 12.3" screen: navigation, media, drive modes, vehicle settings, apps and more. Everything is just one swipe away.

### Comfort display:

8,8" Comfort display enables easy-access to the majority of Grecale's features and personalization (Lights command, Seats vents and heating, Air conditioning, Ambient lighting). With smart gestures control, the 8,8" Comfort display is set to higher the safety level on the car, keeping the driver's focus on the road without having to search for climate settings on the display.

### Instrument cluster:

The 12.3" TFT Digital Cluster has been designed to ensure full visibility in any condition and for any driver. Four configurations are available: Classic, Evolved, Relaxed and Corsa (Trofeo only).

### Future o'clock:

Classic frame, progressive technology. Time has come to renew a distinctive detail. The iconic mechanical clock has turned into a digital smartwatch whose style changes according to your taste. Not only does it tell the time, it also becomes a driver-car interface that enables smart vocal interactions.

#### All clear above:

The Grecale's sunroof in tinted safety glass – standard on the Trofeo version – is power-controlled and can be in the “open”, “vent” or “close” position. The interaction between light and material is sublime.

#### Form is function:

The central panel free of buttons and gear lever makes room for the spacious armrest, two ample cup holders, a large storage compartment with double butterfly doors, and a mobile phone charging area.

**Take your seat:**

The interiors of the Grecale are a fusion of functionality and luxury. The interior is inspired by the concept of a clean, modern and emotive design, with room for new technology.

**Ambient lighting:**

Soft diffused lighting with three available levels of intensity creates a refined living room effect. Lights turn red when in Sport mode and yellow when in Corsa mode (Trofeo version only).

### Superior interior space:

Your comfort, our obsession. The all-new Grecale SUV is best in class for cabin space maximizing its volume through streamlined, functional design.

### Sonus faber sound system:

The engine note of the Grecale needs the best in-car sound system to match. The partnership with Sonus faber, Italian Artisans of Sound, provides a breathtaking listening experience with their audio systems for the Grecale.

### The voice of Sonus faber:

The outstanding sound balance in the cabin is achieved through natural materials, exclusive speaker design and bespoke subwoofer technology. With excellent insulation from outside noise, the Grecale offers the perfect stage for a 360° music experience.

Communicating with your car from your couch is that simple. With In-Car Alexa, you can ask to play music, hear the news, check the weather, control smart home devices, and more.

### Wi-Fi and Navigation:

Enjoy the 12.3” Head Unit while navigating with the latest maps and real-time traffic information, and receive updates about weather and parking availability at destination, made easy to find with Street View. Activate the on-board Wi-Fi hotspot and browse and stream on up to 8 devices.

# Advanced Driving *Assistance System*

The Grecale is equipped with a comprehensive range of Level 2 Advanced Driving Assistance Systems, the highest level of driving automation support available on the market.

## **Cruise Control**

Cruise control allows the driver to maintain a fixed desired speed.

## **Adaptive Cruise Control**

As an upgrade to standard Cruise Control, the adaptive functionality is available as an optional. Adaptive Cruise Control automatically adapts the vehicle speed in order to maintain a safe selected distance from vehicles ahead. The maximum speed available is 210 Kmh.

## **Park Assist with rear active braking**

Grecale is equipped with front and rear parking sensors as standard. In addition to Park Assist functionality, the vehicle will automatically brake to avoid damage on bumper in parking procedures.

## **Rearview Camera with Dynamic Gridlines**

Grecale offers the Rear Parking Camera with Dynamic Gridlines as a standard content. This system helps the driver when parking or during tight maneuvers. In combination with the rear parking sensors, the system both visually and acoustically alerts the driver to any potential objects or obstructions.

## **Surround View Camera**

The Surround View Camera, offered as an optional, allows the driver to have an excellent visibility of each side of the car thanks to cameras and sensors located in specific car areas.

## **Active Lane management**

Offered as an option, it provides steering correction to help the driver avoid a collision with the other vehicle and reduces stress for the driver when in traffic.

## **Traffic Sign Recognition**

Offered as an option, it is a front facing camera which recognizes speed limits, related traffic signs and provides alerts to the driver.

## **Drowsy driving detection**

Offered as optional content, the Drowsy driving detection monitors the driver's drowsiness. If the system detects signs of drowsiness, the driver is alerted to recommend rest.

## **Intersection Collision Assist**

Offered as optional content, the Intersection Collision Assist detects risk of collision with intersection cross-traffic. It provides warning to the driver of risk and mitigates risk of collision through auto emergency braking, when appropriate.

## **Intelligent Speed Assist**

Intelligent Speed Assist (Speed Limiter & TSR) allows the driver to set a maximum speed and, in pair with traffic sign recognition, set a maximum speed following road signs.

**Automated Emergency Braking with Pedestrian/Cyclist Recognition**

The system shall warn the driver of a potential forward collision; it will prompt the driver to take action through audible and visual warning, finally it could trigger a braking force in an attempt to help the driver mitigate or avoid the collision.

**Blind Spot Monitor and Rear Cross Path (RCP)**

Grecale offers the passive Blind Spot detection and Rear Cross Path functions as optional content. The Blind Spot monitors the detection zones on both sides of the vehicle and alerts the driver when a vehicle enters one of the blind spot zones. The Rear Cross Path function is intended to aid the drivers when backing out of parking spaces where their vision of oncoming vehicles may be blocked.

**Active Driving Assist**

Active Driving Assist is an extension of Maserati Highway Assist. Different from Highway Assist which operates on limited access freeways only, this new system is supported on every road condition. Of course, the driver is required to stay engaged while driving since he/she is still legally responsible for the driving and must always supervise the driving conditions and be ready to maintain full control of the car at any given moment if necessary.

**Virtual Wall**

The Virtual Wall is a feature meant to help the driver during parking maneuvers. It displays the obstacle detected by Parking sensors in the form of colored transparent virtual blocks.
